My Father keeps the PM waiting

Written by one of Neon's oldest friends and closest collaborators, *My Father keeps the PM waiting* is a book like none you've ever read.

Based on the real-life story of how Lindsay Camp's father helped Harold Wilson snatch defeat from the jaws of victory in the 1970 general election, it's a heady, unpigeonholeable blend of fact and fiction; a political thriller that's also a tender love story, a mixed-up family memoir and a meditation on the subject of fatherhood. Lindsay assures us it's a novel, and we're taking his word for it.

In any case, it's a cracking read; an absolute page-turner, and laugh-out-loud funny. So Lindsay's brief to us for online publication was simple: make it look lovely, but, above all, make sure it's easy to navigate and a pleasure to read.

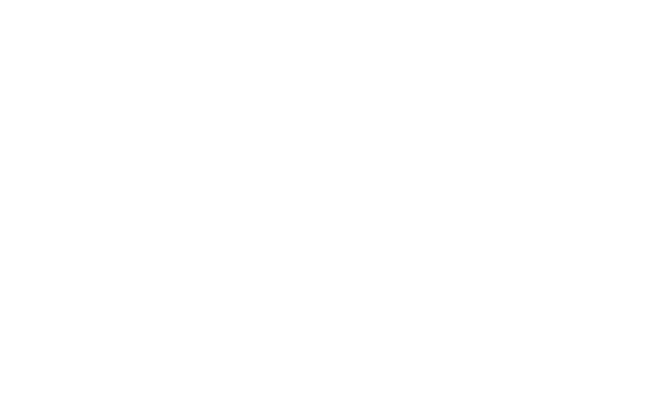

Kind words...

*"I've worked with Dana on countless projects for clients over the last 20 years, so it was no surprise to discover that working with Dana on a project, as a client, is an equally delightful experience. I couldn't be happier with the way *My Father keeps the PM waiting* works online, and the idea for the AI imagery was the kind of flash of creative genius I've come to expect from Dana, over the years."*
